Mag Glycinate (120 Tablets) \$20.95

Highly Absorbable Magnesium

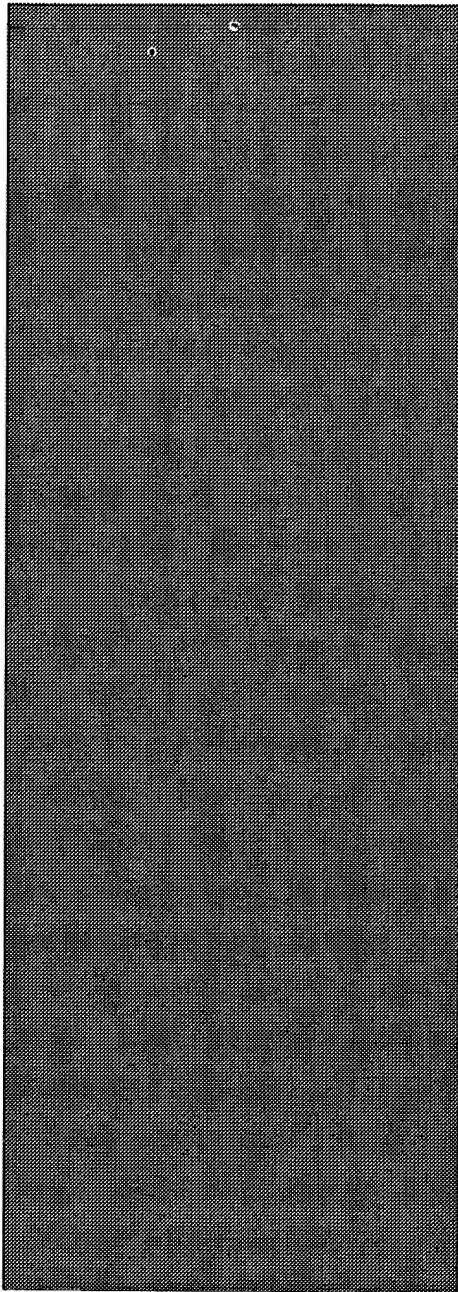

Magnesium is intimately involved in energy production and plays an important role in biosynthesis, growth, bone mineralization, thermogenesis, and intestinal motility. It also functions as a calcium channel regulator in all muscle types, plays an essential role in muscle relaxation, and helps to prevent nocturnal leg muscle cramps. Mag Glycinate is a revolutionary, fully reacted amino acid chelate produced by a unique, patented process that is designed to enhance absorption and intestinal tolerance. Magnesium is a cofactor in many metabolic reactions.*

Two Tablets Supply:

Magnesium (Glycinate)	200 mg
--------------------------	-----------

Recommendations: 2 tablets twice daily between meals.
